

Manbaskets

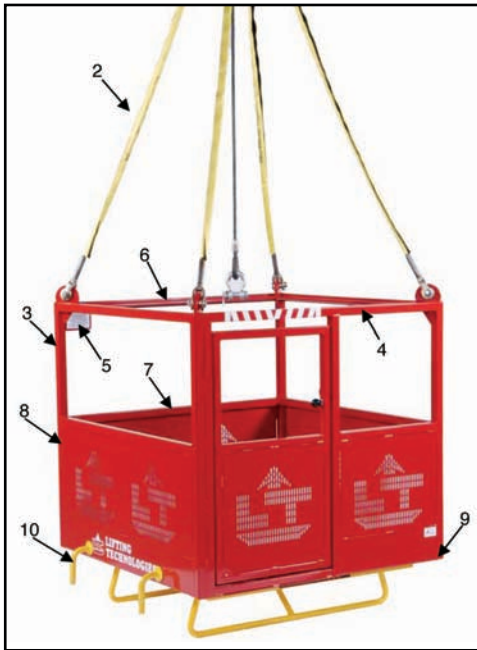

SEC & REC Model Specifications

The solid red Economy Model manbasket by Lifting Technologies Inc. is designed and built for the budget-conscious user. This fine, lighter-weight personnel platform provides many of the high-quality features and benefits of LTI's famous yellow-and-black Standard models.

- Designed, built and certified in full compliance with OSHA CFR Part 1926.550(g). Final Rule
- Patented easy-on/easy-off detachable test weight (U.S. Patent No. 4,884,454)
- Four-leg dedicated sling assembly
- High-strength .125" wall, 1.500" square tubular steel frame
- 42" high guardrail and full-perimeter inner grab rail
- Perforated steel sides from toeboard to mid-rail
- Inward-opening access gate
- Optional overhead protection
- Electrostatic powder coat finish in solid red (test weight and pins in safety yellow)

SEC2-600

- 1) Optional Overhead Protection
- 2) 1/2" 6x37 IWRC Wire Rope With Protective Cover On Non-Overhead Models
